Recent publications

For historical reasons, highly-selective conference publications are preferred over journal papers in computer science. I am the author of 19 papers in highly-selective venues (including POPL, PLDI, ICFP, ICALP, ECOOP) and 26 other peer-reviewed papers. I have an h-index of 16 (6 in WoS) and my work has 1040+ citations (188 in WoS).
